the 1990s, the number of people in the world who are poor has increased. The number of people who are poor in the United States has also increased.

There are many reasons for this. One reason is that the world population has increased. There are now over 6 billion people in the world, and the number is still increasing.

Another reason is that the cost of living has increased. The price of food, clothing, and housing has gone up, and this has made it harder for people to afford these things.

There are also many other reasons for the increase in poverty. For example, there is a lot of unemployment in many countries, and this means that people do not have enough money to live on.

It is important to find ways to help poor people. One way is to give them money. Another way is to give them food and clothing. There are many other ways to help, and we need to find them.

It is also important to find ways to prevent poverty. One way is to give people the skills they need to find a job. Another way is to give people the money they need to start a business.

There are many other ways to prevent poverty, and we need to find them. It is important to help poor people, and we need to find ways to prevent poverty.

There are many people who are poor in the United States. There are also many people who are poor in other countries. We need to find ways to help them.

**OXIGEN 30.**

**IGIENIZZANTE A BASE DI  
OSSIGENO ATTIVO**

**TANICA: 12 kg -  
25 kg**

**24000** Rev.01 del 20/03/2020

**SPECIALI**

**IGIENIZZANTI**

**Composizione**

**pH**

7,00 ± 0,5 (1%)

**Peso specifico**

1,130 ± 0,01 g/ml

**Omologa:**

Attività battericida testata secondo UNI EN 1276:2009

- Attività fungicida testata secondo UNI EN 1650:2008

- Estensione attività battericida al microrganismo *Listeria monocytogenes* testata secondo UNI EN 1276:2009

- Prodotto idoneo all'autocontrollo HACCP (Reg. Com. n. 852/2004)

- Prodotto conforme alla circolare 0005443 del 22/02/2020 del DGPRES (Ministero della Salute)

**Applicazioni**

Igienizzante liquido ad alta concentrazione a base di perossido d'idrogeno per la sanificazione di superfici ed impianti, MANTO STRADALE, UFFICI, macelli, salumifici, aziende ittiche ed industrie di trasformazione nel settore alimentare. Battericida ad ampio spettro caratterizzato da uno spiccato potere ossidante, risulta attivo anche in presenza di contaminazioni organiche mantenendo al contempo un'elevata risciacquabilità. La completa assenza di schiuma rendono OXIGEN 30 particolarmente adatto all'utilizzo in cicli chiusi dove l'applicazione a temperature comprese tra i 40 ed i 60° C riduce sensibilmente i tempi di contatto.

Utilizzabile anche per applicazioni a nebbia fredda.

**Uso e Dosi**

Tattamento periodico giornaliero: diluizione 0,3 - 0,7%.

Tattamento giornaliero in ambienti molto esposti: diluizione 0,8 - 1,3%.

Per il lavaggio e la sanificazione di frutta e verdura diluire 0,4 - 0,6%.

Trattamento d'urto (superfici non perfettamente deterse): diluizione 1,5 2%.

Tempi di contatto medi (utilizzo con sistemi di lavaggio CIP): 15/20 min a 18-25°C - 5/10 min a 40-60°C

Trattamento secondo circolare 0005443 del 22/02/2020, diluire il prodotto 1,5%
